WORK EXPERIENCE

- Student Aid**
Pima Community College
05/2016 – 02/2017 Tucson, Az

PERSONAL PROJECTS

- YouTube API (04/2017 – 04/2017)**
 - Youtube Search API
 - Application built with Angular Framework and Gulp.
 - This application allows the user to search popular videos or related queries from Youtube.
- Nike Clone (04/2017 – 04/2017)**
 - Built in Angular, Postgres, Express, Auth0.
 - Project also built in Ionic (Mobile)
 - The site allows you to view and add various shoes to your cart. You can then view your cart and proceed to checkout. Shoes (once bought) will be saved into a database of previously bought products.
 - A full stack application built primarily with Angular framework. It was then recreated as an Ionic application available for all mobile platforms.
- Google Docs Clone (05/2017 – 05/2017)**
 - Group Project Built with 3 other students in 2 weeks
 - Built in Angular, PostgreSQL, Express, Auth0, Quill, Jquery, Node
 - Replica of Google Docs, Slides, Excel, and Drive
 - Part of Front-End Development Team

EDUCATION

- Associate Of Science**
Pima Community College
05/2011 – 08/2013 Tucson, Az
- Dev Mountain**
Computer Science
03/2017 – 06/2017 Provo, Ut

SKILLS & COMPETENCIES

ACHIEVEMENTS

- Runner Up For Most Shippable Project -DM 21**
(05/2017 – 05/2017)
The Nike Clone
- Javascript Web Development (03/2017 – 06/2017)**
-Dev Mountain Graduate

CERTIFICATES

- DEV211.1x: Introduction to HTML and JavaScript**
(01/2017 – Present)
A course of study offered by Microsoft, an online learning initiative of Microsoft Corporation through edX.
- Dev Mountain Badge (06/2017 – Present)**
-Students who receive this badge are comfortable working with Javascript to perform basic logic and algorithmic tasks. They can build full-stack applications using Angular, Node, Express, and SQL. Within angular they know controllers, services, directives, mvc, REST/\$http and more. They know REST and how to build APIs that interact with an SQL database. They have created and hosted live a personal project. They have worked on a team to create a project as a group and host it live
